Fluidampr at SEMA360

SPRINGVILLE, NY [October 14, 2020] - Join the Fluidampr team on-line at SEMA360. Nov. 2 -6, 2020. Chat with tech support staff. Grab a copy of the latest catalog and educational materials. Watch featured damper & influencer videos. Hang out for a Learn @ Lunch with Fluidampr presentation. Everything you'd expect at a traditional tradeshow booth, moved on-line.

"SEMA360 promises to bring the industry together at the time when friendships and passion around the automotive aftermarket and performance racing industry are so welcomed," says Brian LeBarron, Fluidampr marketing. "What's unique with SEMA360, compared to simply browsing the Internet and social media, is we've compiled our best-of-the-best content in one spot. Plus you have instance access to chat and connect with our team. Look for us under Featured Exhibitors."

New Product Showcase

Visit the SEMA360 new product showcase for this year's hot new product releases. Including a revision to our popular Toyota 2JZ damper, plus full-on performance diesel competition dampers for the 5.9L/6.7L Cummins engine, and our first ever Pro Pulling tractor damper.

Learn @ Lunch with Fluidampr

High Performance Engines Win With A Torsional Viscous Damper.

SEMA360 Tues. Nov. 3, 12n-12:20p PST. (15 seat limit)

Performance dampers for gas and diesel engines.

180 Zoar Valley Road / Springville / NY 14141 / phone: 716.592.1000 / fax: 716.592.1001 / www.fluidampr.com

Professionals and OEM race teams are making the switch to Fluidampr performance dampers for long term durability and performance. Learn why you should too. Understand today's advancements in viscous style harmonic balancers, plus the different dynamics between diesel and gas applications.

Lightweight Viscous Dampers In High Temp, High Performance Engines.

SEMA360 Thus. Nov. 5, 12n-12:20 PST. (15 seat limit)

Today's high performance engines require a harmonic balancer that can exceed the challenges of weight constraints, rising engine bay ambient temperature and restrictive airflow. Come discover new viscous damper breakthroughs happening at Vibratex TVD for superior durability in extreme environments. Learn how successful advancement in their Fluidampr performance damper products for professional motorsports have been scaled for OEM production in automotive and heavy-duty engines.

About Fluidampr

Fluidampr performance dampers provide optimum performance and durability by controlling destructive crankshaft torsional vibration. Install whenever engine modifications are made to help reduce wear on critical internal components. Features high quality, long lasting viscous silicone damper technology. No tuning or maintenance required. SFI 18.1 certified. Available through quality performance parts retailers and distributors. Visit Fluidampr.com or call (716) 592-1000 to locate a dealer near you. Made in the USA.
