New Milwaukee® Lighting Solution Lights the Site with PACKOUT™ Compatibility

MILWAUKEE, WI- Milwaukee Tool, the leading jobsite lighting provider, is expanding their Lighting Solutions once again with the introduction of the M18™ PACKOUT™ Light/Charger. The new lighting solution equips users with all-day, multi-directional lighting and charging in one dedicated solution that is fully compatible with the PACKOUT™ Modular Storage System*.

The M18™ PACKOUT™ Light/Charger delivers 3,000 lumens of TRUEVIEW™ High Definition Output* to easily light the site. For complete control of lighting preference, the light is equipped with three independent rotating lights so users can choose between task or area lighting. To easily manage output and run-time, the light is complete with nine total modes – All Lights, Main Panel, or Back/Front Lights – each including high, medium, and low settings.

For ease of use, the light features a dual power feature with an integrated AC input for all-day runtime and M18™ battery charging. In addition, the M18™ PACKOUT™ Light/Charger features a storage compartment and 2.1AMP USB port for device charging and storage of small items. When equipped with the M18™ REDLITHIUM™ XC 5.0 Battery Pack, the light/charger provides users with up to 31 hours of runtime.

Through an intuitive and quick attachment mechanism, the M18™ PACKOUT™ Light/Charger is designed to be easily accessible when stacked on top of or within an existing PACKOUT™ Modular Storage System. The light/charger can be used both on and off the PACKOUT™ stack, making it the most portable and versatile task light available.

For increased durability, the PACKOUT™ Light/Charger is IP54 rated for dust and water resistance.

Milwaukee is committed to improving productivity by providing performance-driven and trade-focused solutions so users can perform an entire day's work on one battery system. The new M18™ PACKOUT™ Light/Charger is fully compatible with the entire M18™ line and is a true testament to Milwaukee's focus on investing in game-changing technology that delivers breakthrough solutions for users. Milwaukee will continue to design and develop lighting solutions with the ability to adapt, perform, and survive the demands of professional use.

**TRUEVIEW™ Technology and optical design delivers a consistent beam, optimized color temperature, and true representation of colors and detail leading to a more productive work area.*

***The PACKOUT™ Modular Storage System is the most versatile and durable modular storage system in the industry. An intuitive and quick attachment mechanism gives users the freedom to stack and lock PACKOUT™ tool boxes, organizers, totes, and bags of different sizes in numerous configurations that best suit their needs.
